3, 4, 5, 6, 7

Reminders:

- Bring a family picture in to add to our family tree.
- Remember socks are mandatory.

Show and Tell:

Items related to our theme or the sound of the week

What happened last month:

This has been an exciting and rewarding month. Not only have your children started building relationships with teachers and peers, they are also discovering and having new experiences in their classroom. The children are starting to express their feelings and emotions through play, song and dance during their day. We have introduced a social/emotional method of learning called "How to Fill a bucket". Ask your child what it means to fill someone's bucket and what it means to dip into someone's bucket. The special helper of the day has started with many meaningful jobs during our day. Examples: Counting the friends, changing the calendar date, line leader and transition bell ringer. We learned all about each other this month too, making self-portraits, eye colour and height charts, finger prints, discussing similarities and differences and sharing family photos. We have also been discussing the seasons of the year and what is happening currently in our environment.

Things to look forward to this month:

The children will be learning about nocturnal animals this month. This includes: What does nocturnal mean, what animals are nocturnal, Art, music and dance to enhance learning. We will also be preparing Stone Soup with the children, based on the story. Please see invitation that was emailed out for more details. We also have Picture Day this month. We will end the month with a Halloween party. Please watch for volunteer and treat sign ups.

Important Dates:

Oct 9, 10 - Stone soup.

Oct 11 - PD Day (No School)

Oct 14 - Thanksgiving (No school)

Oct 21, 22 - Picture Day

Oct 30, 31 - Halloween Parties.
